SUCCESS COMMUNITY
learn. share. connect.

What's the Problem?

Oracle is complex

- Data structure is difficult to self serve
- Oracle's tools require expert skillsets
- Dependent on IT
- Time-destructive, error prone processes

Users require Excel

- 73% of finance use Excel daily¹
- Most BI solutions have "export to Excel"
- Oracle to Excel traversal is cumbersome

GL Wand leverages both platforms

- Add-in to Excel, real-time reporting
- Integrated with Oracle Financials
- Installs in minutes

Wands for Oracle

- **Excel-based** reporting and uploading solutions for E-Business Suite
- Enable business users to manage key process **in Excel** with **real-time** data
- **Self-service solutions**, quick install, seamless integration, **no IT** reliance
- **Maximize** existing investments in Microsoft and Oracle

Wands for Oracle

ORACLE®

Report & Analyze

- GL Wand & Reports Wand
- Real-time reporting any module in EBS
- Library of 1,000+ out-of-the box reports
- Replacement for Discoverer, FSGs, Client/Web ADI

Upload & Post

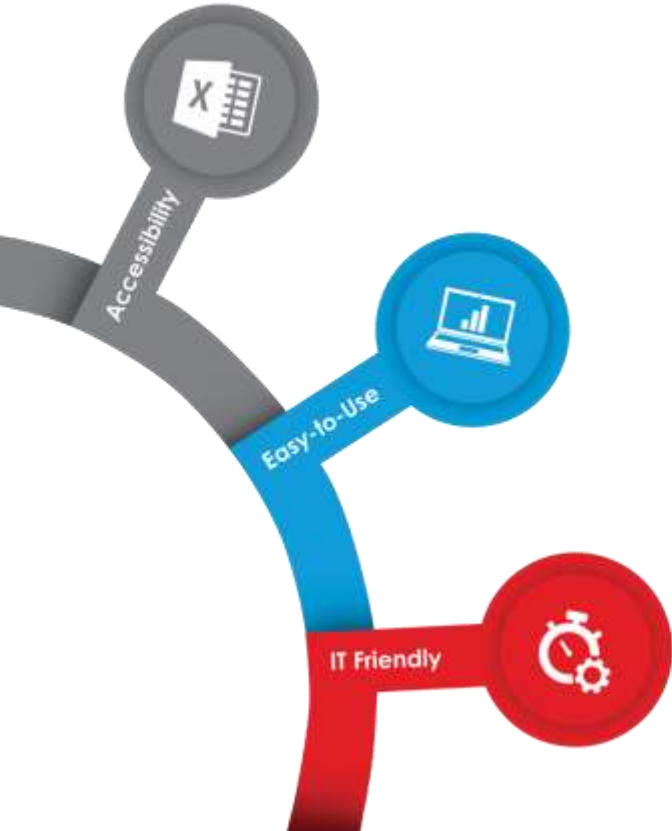

- Budget Wand & Journal Wand (Beta)
- Load batch uploads of journal entries
- Create, load, and analyze budgets
- Replace Web ADI

Budget & Forecast

- Budget Wand & GL Wand
- Upload Budgets, bring in Actuals

Why Excel4apps?

Accessibility

- Real-time E-Business Suite reporting and easy uploads of journals and budgets
- Build reports with Excel wizards, no IT or SQL knowledge required
- Leverage existing security settings, logon with Oracle username/password

Easy-to-Use

- Excel interface
- No reliance on IT
- Little training needed
- Rapid user acceptance

IT Friendly

- Access from any PC, no desktop software installation
- Little IT support needed
- Low cost of ownership
